Ordered to evacuate?

If you feel unsafe, leave! Don't wait for an official evacuation order!

- Stay calm and don't panic.
- Tune your radio to **106.9 FM or 740 AM** for emergency broadcasts.
- Go to tinyurl.com/evacuation-zone to see where to go.
- If roads are clear and you can drive, head downhill via familiar routes.
- Leave your windows up, external vents closed and headlights on.
- Stay in your car. Follow the safest path to a **large open space**, like a large parking lot away from anything flammable.

If you have time before you evacuate

- Gather photos, jewelry and other irreplaceable items.
- Shut all your windows and doors. Leave exterior doors unlocked and lights on.
- Remove curtains and push furniture away from walls.
